

# Physical Medicine & Rehabilitation Sports Medicine Fellowship

## Mission Statement

This fellowship develops leaders in the field of sports medicine with an emphasis in clinical care, team coverage, and medical education. We aim for trainees to thrive in a supportive and academically enriched environment.

Ultimately, fellows from this program will lead in their community by providing top level evidence-based sports medicine and musculoskeletal care.

## Who are we looking for in a fellow?

- Physician who is aiming to be a leader in the field of sports medicine and has interest in an academic career
- Physician who wants to be a comprehensive team physician at the collegiate level or higher
- Physician who is passionate about education and also wants to be a leader in musculoskeletal ultrasound
- At this time, we only take PM&R Trainees in the fellowship program

## Details of Fellowship & Curriculum

Please review the QR Code content for a detailed presentation on the fellowship and most-up-to-date list of curriculums.

*Presentation can only be reviewed after being downloaded onto a computer with Microsoft Powerpoint and will not work on a phone.*
