

Panther Rehab Rounds

Grand Rounds Lecture Series

January 15, 2025 | 7:00am

Mercy Pavilion Room 4.221 (in-person)

Virtual Zoom (optional)

Spinal Cord Stimulation to Restore Sensation and Reduce Phantom Limb Pain after Limb Amputation

Presented by:
Lee Fisher

PhD, Associate Professor, Assistant Vice Chair for Research

2025 Schedule

January 15

February 19

March 19

April 16

May 21

June 11 - RI Day

July 16

August 20

September 17

October 15

November 12

December 10

Dr. Fisher is an Associate Professor in the Departments of Physical Medicine & Rehabilitation and Bioengineering at the University of Pittsburgh and Director of Education at the Rehab Neural Engineering Labs. His research interests involve the development of neuroprostheses to restore sensory, motor, and autonomic function after neural damage or disease, with a particular focus on restoring sensory feedback from prosthetic limbs after amputation.

We welcome anyone interested to attend Panther Rehab Rounds. For information, or if you have special needs, contact Susan Redding (sur88@pitt.edu) or Wendell Robinson (robinsonwt2@upmc.edu), Dept. of PM&R.

The University of Pittsburgh School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to sponsor continuing education for physicians. The University of Pittsburgh School of Medicine designates this educational activity for a maximum of one (1) category 1 credit toward the AMA Physician's Recognition Award. Each physician should claim only those credits that they actually spent in the educational activity.
